Professional Summary |

Software Developer and MCA student with strong knowledge of Java, Python, SQL, Data Structures, OOP, DBMS, and Web Development. Experienced in developing full-stack applications, REST APIs, and AI-powered solutions using Flask and React. Passionate about writing clean, scalable code and eager to contribute as a Software Developer, Java Developer, or QA Engineer.

Technical Skills

Programming Languages: Java, Python, My SQL, SQLite
Web Development: HTML, CSS, Bootstrap
Core Concepts: Data Structures, OOP, DBMS, Operating System, Computer Architecture
Tools: Git, GitHub, VS Code, Eclipse, Android Studio, Postman, Power BI
Testing & Methodologies: JUnit, Debugging, Manual Testing, SDLC, STLC, Agile (Scrum basics)

Projects

AI-Driven Business Automation Agent | *Python, SQL, Data Processing, LLM APIs* | Mar 2026

- Automated an AI assistant with voice recognition and intelligent responses using Python.
- Designed a responsive web interface with React, integrating RESTful APIs for real-time interaction.
- Added speech-to-text, user auth, and modular design for scalability across devices.

HRMS - Human Resource Management System | *Python Flask, SQL, HTML, CSS, Js* | Feb 2026

- Crafted a full-stack HRMS to manage employee records, attendance, leave requests, and payroll operations.
- Created RESTful APIs with role-based authentication and integrated a relational database for efficient data handling.
- Implemented CRUD operations, validations, and dashboard features ensuring optimized performance and code quality.

Domino's Clone Website | *HTML, CSS, JavaScript, Python, SQL* | Jul 2025

- Developed a full-stack pizza ordering platform with dynamic menu display, cart management functionality.
- Integrated backend with a custom database for order storage and retrieval, ensuring a smooth, real-world-like ordering experience.

Java Stopwatch Application | *Java, Swing, OOP* | Jun 2025

- Coded a Java Swing-based stopwatch application with Start, Stop, Reset, and Lap functionalities.
- Applied Object-Oriented Programming principles and event-driven programming to build a responsive desktop GUI.
- Delivered modular, maintainable code to improve performance and user experience.

Education

Sharda University Aug. 2024- May 2026

Masters Of Computer Application —CGPA-9.1 Greater Noida, Uttar Pradesh

Chhatrapati Shahu Ji Maharaj University July. 2021- May 2024

Bachelor Of Science —CGPA-8.11 Kanpur, Uttar Pradesh

Certifications

Kotlin Android Development— Sharda University Apr 2025

Data Structures & Algorithms—Simplilearn Mar 2025

Prompt Engineering—Sharda University Mar 2025

C Programming— Great Learning Academy Nov 2024

Java Programming—CSJM University Jun 2022

Achievements

- Participated in a college-level **Hackathon**, building a software prototype in a team environment.
- Solved **200+ Data Structures and Algorithms problems** on coding platforms.
- Built and deployed **3+ software projects** using Java, Python, Flask, SQL, HTML.
